

EDINA CHP POWER EUROPE'S FIRST CREATIVE AND MEDIA DEVELOPMENT HUB

CASE STUDY MEDIACITYUK

Edina supplies and installs 2MWe combined heat and power (CHP) plant at Europe's first purpose built creative and media development.

The CHP reduces energy costs, carbon emissions and provide security of power supply.

MediaCityUK is the first development in the world to become a BREEAM approved sustainable community.

The highly efficient low carbon site based tri-generation system for the local generation of heat, cooling and electricity which will save approx. 20,000 tonnes of CO₂ per annum.
